St Mary's Priory Catholic Infant and Junior Schools' Weekly Newsletter 15th December. 2022

'Love one another; Always do our best; Take care of ourselves and the world around us'

Christmas lunch and Jumper Day!

Children and staff enjoyed a wonderful Christmas lunch this afternoon. We all came together to share a meal before we head into our Christmas break.

Sports Star!

Congratulations to this very sporty young lady, who was chosen as our 'sports star' by our PE coach, Daniel, from Elms Group.

Congratulations!

The PSA raised a whopping £2000 for our school last week at the Christmas Fair!

Thank you so much to all of our families, and a special thank you to our FANTASTIC PSA! The team worked tirelessly to get everything ready for the fair and gave their time so generously.

Mrs Georgiou

St Mary's Priory Catholic Infant and Junior Schools' Weekly Newsletter 15th December, 2022

'Love one another; Always do our best; Take care of ourselves and the world around us'

When:	What:	Who:	Where:	Time:
16th December	Early closure for all pupils	All pupils	Infant and Junior School	2pm
3rd January	School closed for staff INSET day	All pupils		
4th January	School reopens for spring term	All pupils	Infant and Junior School	8.50am

Reminders

- School closes at 2pm on Friday 16th December
- Follow us on Twitter! @stmarysrcpriory to see weekly updates from our classes!

Christmas Performances

Thank you to our teachers and support staff for organising this year's performances which were absolutely fantastic. Well done to our children who performed marvellously!

St Mary's Online Safety Tips

Here at St Mary's we consider online safety a priority, we acknowledge that the world our children are preparing for is becoming increasingly online. Therefore, we have compiled the following tips in order to support you in guiding your child through digital experiences.

Set Up Parental Controls

Home internet providers can offer parental controls for your family. There are 2 ways of achieving this:

- Use a filter from your internet provider to control the content that you and your family see. Some providers allow different settings for each user.
- Set up any device connected to your home broadband. How you do this depends on your provider and you'll need to access your home router. You can ask your internet provider for help setting this up.

Check the settings on any games or device that your child is on.

Settings icons usually look like a gear like this: 🎯

On some devices you can control the following:

- Turn off chat functions to stop your child from talking to people they don't know
- Restrict games based on age
- Turn off in-game purchases, or set a limit.

An example is shown on the popular game Roblox: My Settings My Settings **Privacy Settings** Contact Settings What are Account Controls? Account PIN Turn on If you go to settings, then select security you can Account PIN is currently disabled set a pin, this will control when your child will be able to access the game. You can also enable the Account Restrictions account restrictions; this means your child will access content that is more filtered. If you go to privacy settings, disable the chat.

Have devices in a supervised area

Remember that parental control tools are not always 100% effective and sometimes, unsuitable content can get past them, so don't rely on them alone to protect your child.

The best way to ensure your child is safe is to monitor their behaviours online. It is not reasonable to expect young children to regulate their own behaviours online, just as we would not expect it to be reasonable for a child to arrange what they have for dinner each night, we as adults must guide the children in their choices.

Avoid headphones or headsets, unfortunately there is plenty of content that appears to be aimed at children but have inappropriate themes. Remember, just because something is a 'cartoon' doesn't mean it's for children.

Open a Discussion

- Talk to your child and ask them to show or even teach you how they use the internet, learn which websites
 or tools they like to use and why. Learning together can often open opportunities to discuss safe behaviour
 with your child.
- Always ensure your child knows how to block or report people online who send nasty or inappropriate
 messages or content. Encourage your child not to retaliate or reply.
- Make sure your child knows to tell an adult they trust if they see something online that makes them feel scared, worried or uncomfortable. This will only begin with
- Children love talking about games! If you ask them what their mission is, what the game is about or even
 play a short game with them, you can learn a wealth of knowledge about what your child enjoys online. This
 will allow you to look it up in your own time to scan whether it is appropriate or safe for your child.
- Discuss the SMART rules listed below for guidance, the children would have been taught these guidelines to follow when online. Support them in understanding them and realising their application.

Learn the SMART rules

Safe: Keep safe by being careful not to give out personal information when you're chatting or posting online. Personal information includes your email address, phone number and password.

Meet: Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present. Remember online friends are still strangers even if you have been talking to them for a long time.

Accepting: Accepting emails, messages, or opening files, images or texts from people you don't know or trust can lead to problems — they may contain viruses or nasty messages!

Reliable: Someone online might lie about who they are and information on the internet may not be true. Always check information you see or hear from the internet or social media.

Tell: Tell a parent, carer or a trusted adult if someone, or something, makes you feel uncomfortable or worried, or if you or someone you know is being bullied online.

Owl Class	Reece	Yapsel
Robin Class	Andreas	Leila
Swan Class	Ava Marie	Euale
Woodpecker Class	Ariana	Mason
Dove Class	whole class	
3N	Archie	Blessing
3M	Annabelle	Arya

What's been happening at St Mary's this week?

Make sure you check out our school's Twitter account to keep up to date with what our pupils are getting up to!

Those of us in 6D who managed to get to school today had a lovely day learning as normal but also practising carols for our Wednesday morning performance and using oil pastels to create pictures of a snowy night in Winter.

y is Christmas jumper day. 6B do it in style.

Applying for Haringe Primary School Online Talks with Q&A

Haringey is running a series of **online meetings** to help you apply for your child's primary school.

If your child is currently in the last year of nursery, log in for advice and guidance on how to apply for primary school.

30 minute talk plus Q&A sessions:

 Frida 	y 11 Nov	, 9am
---------------------------	----------	-------

- Monday 14 Nov, 3pm
- Tuesday 22 Nov, 5pm
- Wednesday 30 Nov, 1pm
- Wednesday 7 Dec, 2pm
- Tuesday 13 Dec, 12pm
- Monday 19 Dec, 6pm
- Wednesday 28 Dec, 11am
- Thursday 5 Jan, 9am
- Monday 9 Jan, 11am
- Friday 13 Jan, 5pm

What Parents & Carers Need to Know about SOCIAL MEDIA & MENTAL HEALTH

An estimated one-third of children have a social media account, so it's important that trusted adults know what content young people are consuming, what they're posting and the interactions they're having. On social media, it can be easy to go down 'rabbit holes' that aren't beneficial to our wellbeing. As platforms grapple with managing such 'legal but harmful' content, lives are being impacted – sometimes to tragic effect. We might be daunted by the scale of the tech giants and their content which so enthrals young people, but we can still help children to be aware of their mental wellness: recognising when something isn't OK ... and knowing what to do about content that upsets them.

1. UNDERSTAND THE ALGORITHM

Algorithms rank content by user interest: someone who regularly interacts with sports news, say, will see the lotest results at the top of their feed. Likewise, if a user browses content that can cause harm, that's what will be recommended to them in future. Someone who's had a bad day and looks for posts which reflect their mode will find similar content being suggested to them more and more.

2. AVOID THE MAIN FEEDS .

Avoiding the default feeds on social media platforms limits the amount of recommended content that's shown. Users can opt to only scroll through the accounts they follow, use restricted modes, or highlight posts that they don't want to see more of. Explore the platform safety settings to see how you can take control of what your child's phon shows them when they open the app.

3. DISCUSS WHAT THEY'VE SEEN

Chatting about what your child's seen online keep you aware of the content they're interacting with. Don't assume that platforms are screening out inappropriate material, or even that your child would recognise content as being harmful. Discuss who they follow, what posts they like and what comes up in their feeds: If alarm bells ring, it could be time for a more lawforth talk or to seek support.

4. LEARN HOW TO HIDE CONTENT

If your child stumbles across unsuitable content on social media, there's the option to hide that post as well as indicating you'c prefer any similar material not to be suggested in future. On some platforms, you might also be able to block posts that contain specific words, which is an excellent way to start taking control of what your child sees online.

5. SET DAILY LIMITS

Phones and most apps can tell you how much they're being used. Spending too long online can mean a child misses out on other activities that are important to all-round wellbeing. You could set some family rules – for everyone to follow – around device use, such as screen time limits and tech-free spaces: involving your child in creating this agreement.

A passionate advocate for vulnerable learners, Shazia is a relieve of the Chartered College of Teaching and the author of The Sariabou Witking a beauthick property to History with SEMU proads

Sources https://www.bbc.co.uk/news/technology-63304605

6. MONITOR THEIR ACTIVITY

Keeping a discreet eye on how your child is using social media can help ensure they re not entering potentially dangerous situations. As they grow up, of course, children need space to exercise their independence – but you can still occasionally ask to see what they're looking at. Be transparent about your own social media use and try not to sound judgemental about your child's.

7. TURN OFF PUSH NOTIFICATIONS

en for adults, it's tempting to check in email or message as soon as the ert sound pings. Push notifications courage people to open their apps despend time on their device, so rning them off will help your child to octise mindful use of tech. Most of is have other things that we need to cus on as a priority – and those others will still be there later,

8. USE DEVICES TOGETHER

Giving children internet-enabled devices and complete freedom to explore platforms on their own can result in exposure to hugely damaging content. You could consider making a particular area at home a designated space to use phones, tablets and so on – making it much easier to monitor what content your child is viewing and (if necessary) steer them away from any potentially harmful paths.

9. ENCOURAGE OTHER ACTIVITIES

Mental health professionals often highlight the importance of exercise, quality time with loved ones, a balanced dlet and restful sleep for our mental wellbeing. Spending hours on social media can cause us to sacrifice other activities that our brains need to feel well – so encouraging your child to put down their phone and enjoy something that doesn't involve a screen can be impressed beneficial.

10. TALK ABOUT PEER PRESSURE

Most platforms aeraulic children's accounts to private, so only people they've accepted as friends can see their posts. This reduces the risk of bullying or unkind comments, but just like offline life – the digital world can still make children feel as if they need to act or look a certain way to fit in. Talk to your child about peer pressure, and listen to any concerns so you can provide the support they need

What Parents & Carers Need to Know about

CALL OF DUTY: MODERN WARFARE II

WHAT ARE THE RISKS? The Call of Duty (CoD) series is a worldwide gaming phenomenon, with millions of copies sold every year.

While 2021's release, Vanguard, wasn't quite as well received, this latest entry – Modern Warfare II – has
so far proved a massive commercial success. A sequel to the recent Modern Warfare reboot (and not
to be confused with the original Modern Warfare 2, from back in 2009), the game is an online
shooter which features – unsurprisingly – extreme violence, rendered in realistic graphics. Amid
the explosions and political nature of the plot, there's much for parents to be aware of.

PEGI 18

VIRTUAL VIOLENCE

Like most of its predecessors in the franchise, Modern Warfare II carries an 18 age rating from PEGI (the Pan-European Gaming Information system, which assesses games' content for suitability). This means players will encounter – according to PEGI's wording – depictions of "gross violence, apparently motiveless killing, or violence towards defenceless characters".

OFFENSIVE CHAT & MESSAGING

Most CoD players are likely to spend the majority of their time on Modern Warfare II in online multiplayer mode. This entails competing against - or cooperating with - strangers on the online battlefield. The fast-paced, cut-throat world of CoD means that communication through the game's voice chat and direct messages often turns heated and aggressive, which may upset younger players.

IN-GAME PURCHASES

Modern Warfare II follows the 'battle pass' model of games like Fortnite. For a fee – usually around £10 – each 'season' (every three months or so), players will be invited to complete extra challenges to earn new weepons and equipment. Different tiers of battle pass (costing more money) enable them to achieve this more quickly, while items can also be purchased from the in-game store.

POLITICAL SENSITIVITY

Previous COD games have been accused of attempting to "rewrite history"; failing to correctly attribute alleged war crimes to the US military, for example. The semi-fictional version of history presented on screen can cause players to misunderstand past conflicts and the real reasons they took place. This could lead to young people developing a distorted, inaccurate view of world politics.

AN ADDICTIVE EXPERIENCE

ittles revolves around leveiling up your character to unlock new weapons, abilities and equipment. The process is designed so that it doesn't take too long to see an mprovement, and the feeling of making meaningful progress can keep players nooked for hours. It's easy for gamers of any age to lose track of time, but younger ones are especially susceptible

Advice for Parents & Carers

RESPECT THE AGE RATING

Based on accurately recreating combat situations, Call of Duty games are unflinching in their portrayal of war. Limbs are shot off and explosions send gore flying, while the previous Modern Warfare featured a lengthy interrogation and torture sequence. With Modern Warfare II offering the same style of brutal realism, it's worth reiterating that the PEGI 18 age rating is there for a reason.

CLOSE OFF COMMUNICATION

Unless they're playing with their real-life friends, it may be worth closing communication channels if your child plays Modern Warfare II. There's less of a team focus than in many other online combat games and therefore no real need to interact with strangers. Call of Duty fans can be intensely competitive, so even a single action by your child could provoke a barrage of abuse from strangers.

SET SPENDING LIMITS

If your child is likely to be tempted by buying that 'must-have' weapon or item, consider removing your bank details from the console or computer to prevent indiscriminate spending – and an unwelcome bill. Pre-paid cards could be an option for in-game purchases, allowing you to control how much your child can spend in advance – and helping them learn the basics of budgeting.

TRY OTHER MODES

If it seems that your child only ever plays Modern Warfare II in multiplayer, you could try out the Spec Ops mode with them — formulating strategies while enjoying each other's company. You could also play multiplayer together, taking it in turns to ensure regular breaks. Another alternative is the game's campaign mode, featuring bespoke missions and scenarios which follow an overarching plot.

What Parents & Carers Need to Know about

Amigo is a social platform which purports to connect strangers from around the world and, with built-in translation software, it reduces the expected language barriers. Focusing heavily on one-to-one chat, video calls and live streams, Amigo encourages its users to build up online relationships and unlock exclusive features such as private video and audio calls: essentially, the more that people chat, the more functions become available to them. This is an app designed with mature users very much in mind and is therefore definitely not recommended for children.

•

ONE-TO-ONE COMMUNICATION

WHAT ARE

THE RISKS?

INAPPROPRIATE CONTACT

LACK OF AGE VERIFICATION

Advice for Parents & Carers

MONITOR DOWNLOADS

ell as frequent catch-ups with your child about what 've enjoyed doing online, you could consider taking the tional step of physically checking their phone every so often to which apps they 've installed. The safest option could be to enable 'ask ly' (Apple) or 'purchase approvals' (Android) on their device, meaning

10

BLOCK, REPORT, DISCUSS

your child does approach you with a concern, make time to stop hat you're doing and actively listen. Let them talk without terrupting or showing any judgement, then discuss their options and e possible solutions: this empowers them and reassures them that your child at risk, your your wisk to concert the palice.

@natonlinesafety

What Parents & Carers Need to Know about

Minecraft is a beloved classic of modern gaming. First released in 2011, this open-ended 'sandbox' game of building and exploration still has over 140 million players who happily return to play it at least once every month. Minecraft has also been utilised for much more than just entertainment: it's sometimes used in schools to teach children coding, and it's also employed as a tool for computer-aided design, which is another valuable skill. Encouraging creativity and problem solving, Minecraft has plenty to offer gamers of all ages, and it's available on almost all video game platforms.

WHAT ARE THE RISKS?

PUBLIC SERVERS

Joining a public network (called a server) lets your child potentially interact with strangers through text chat. Some servers focus on building, while others are dedicated to role-playing – encouraging direct player interaction. Anyone can join public servers and connecting to one is relatively simple. Public server IP addresses (and therefore someone's location) are easy to find with search engines.

GRIEFING

Some people in Minecraft delight in purposefully damaging or destroying another player's creation. This is called 'griefing' and is a form of bullying: It intentionally spoils someone else's experience in the game by deleting hours of their work and forcing them to start from scratch. Many public servers treat griefing as a severe offence and frequently ban offenders.

ADDICTIVENESS

Minecraft's gameplay is relatively simple, and the autcome (when a child has built something new, for instance) can be extremely gratifying. This can make the game highly addictive. It's easy to lose track of time while playing Minecraft, causing committed young players to forget about other activities (like homework or enjoying family time.

SCARV FLEMENTS

The visual design and gameplay of Minecraft is purposefully child friendly, so there's nothing too untoward in the game. However, some of the 'baddles' that can be encountered might prove a little too scary for very young players. In the game, certain enemies come out at night and are accompanied by audio – such as zomble moans and skeleton bone rattles – that may unnerve young ones.

ADDITIONAL PURCHASES

After initially buying the game, players can make optional extra purchases for cosmetic items and other bonuses. Minecraft Realms is an optional online subscription (requiring regular payments) that lets users run a multiplayer server to play with their friends. Most games consoles also need an active subscription to enable online play – so online gaming can quickly become an expensive hobby.

Advice for Parents & Carers

RESEARCH CONTENT CREATORS

There are a lots of Minecraft content creators who release helpful videos about the game on YouTube and Twitch. Not all of these, however, are suitable for children. Watching these content creators' channels yourself first is a safe way to find appropriate Minecraft videos to share with your children. This also helps you learn more about the game itself, and how your child plays it.

CHOOSE THE RIGHT MODE

Selecting 'Creative' or 'Peaceful' mode allows children to play Minecraft without having to contend with enemies. It's also a great way for you to get used to playing the game with them, since the difficulty level is lower. This allows you to work together on a long-term project, creating something special without the threat of moaning zombies or creepers damaging your build.

HOST A PRIVATE SERVER

The easiest way to find a safe server for your child to play on is to make one yourself. Hosting a server prevents strangers from finding it, unless they ve been given the necessary joining details. A private server also lets you control who's allowed to enter and - if necessary - to ban someone who shouldn't be there. This is the closest

ENCOURAGE BREAKS

It's easy for the hours to fly by while your child is playing Minecraft, so reminding them to take regular breaks is essential. This is a useful way for them to learn good time management, which they'll benefit from as they get older. It will also teach them to play their favourite games in moderation – limiting addictive behaviour and allowing them to manage their day better.

TALK ABOUT STRANGERS

At some point in their lives, almost everyone needs to have contact with a stranger online. Talking to your child about online safety, therefore, is essential — as is having a plan in place for dealing with any hostile or difficult strangers. Ensure that your child knows never to tell a stranger about themselves online, and that they should come to you straight away if they do encounter a problem.
